

my CV

Computer Software Engineer

While my most software engineer friends are nerd I am among few exceptions with social and warm-hearted character that sometimes you might complain about my long laugh.

My team work intelligence was always adored by my previous managers beside my technical skill in digital world.

I try to share all kind of my valuable knowledge and experiences with group as I think this is unlimited chain of learning and teaching for everyone. Beside my computer skill also I got bachelor degree in English language and literature and here I share one my most favorable quote by Rumi: "Yesterday I was clever, so I wanted to change the world. Today I am wise, so I am changing myself."

First Name: Mitra

Email: mitrakermanian68@gmail.com
